IRELAND 

Global Perspectives through the Lens of Irish History & Culture

Course Description: The program offers an important socio-historical framework of the history of Ireland from pre-Christian to modern times. We include an overview on Celtic Ireland, British imperialism, Famine and Emigration, Irish-American impact on the United States, with a focus on the Civil Rights movement in Northern Ireland, the subsequent 'Troubles,' the conflict resolution in Northern Ireland and current Peace Process. A comprehensive program of field trips is integrated with the class teaching to reinforce the learning outcomes.

Classes are taught by faculty at Institute of Study Abroad Ireland, and expert guest lecturers.

Guided field trips are led by faculty and expert guides. All outdoor and adventure activities are led by qualified instructors.

The Institute of Study Abroad Ireland (ISA) provides students with a safe and friendly atmosphere to explore a foreign country.

ISA is located in Bundoran, in Donegal County, surrounded by beautiful scenery and historic sites.

The campus is situated amidst the ocean and mountains, near the border of Northern Ireland.

While members of Nebraska Community College Global Leadership and their partners will strive to accommodate participants with disabilities, advance planning is essential. Participants are advised that some sites are accessible only by foot and lack wheelchair-accessible facilities. There will be moderate levels of walking every day, some uphill, and some over terrain that is not suitable for walking aids or wheelchairs.

Program Details

Cost: \$3,200

Includes:

- Airfare
- Ground transportation
- Lodging
- Breakfasts and evening meals
- Admission and field trip fees
- ISA-Ireland program fees
